

OWNER BAND: 2.4GHz + US915MHz. One shared radio; no simultaneous independent radios or PHY/legal-power claim.

SWRC354 support + JTI IPC Rev2.0 + dual-feed antenna Rev3.1. External LNA bias BOTH bands; RF qualification OPEN.

SERVICE DIO4/pin9 != ROM DIO3/pin8. DIO30/pin43 now NC; no RF switch. One time-shared radio.

A101 NC pins2/3/5/6/7/8 must solder to isolated lands. Matching values are EVAL-BOARD STARTS, NOT qualified for28mm PCB.

Factory reset operates supervisor MR: MCU RESET_N takes RESET_OK. DIO18/pin28 fault reserve remains NC.
